

UC BERKELEY

NO BUSINESS AS USUAL!

# STRIKE

At their November 17-19 meeting the UC Regents will be voting on an additional 32% student fee increase. These proposed fees have already been pledged as collateral for \$1.35 billion worth of new construction bonds despite an "extreme fiscal emergency." The Regents will also vote to lay off nearly 2,000 more workers, continue with furlough plans and cut classes and critical student services. The executive administration wants to convince us that their hands are tied by Sacramento, but we know the real crisis is one of priorities. During these days The University Professional and Technical Employees (UPTe) will be striking, the Coalition of University Employees (CUE) will be striking and we will be converging at UCLA and at UC Berkeley to confront the Regents and fight their austerity measures.

## OUR UNIVERSITY!
